

## CARM 2021 GRANDE RESERVA RED

### GRAPES

We selected grapes of the varieties Tinta Roriz, Touriga Franca and Touriga Nacional, all produced in CARM vineyards. The use of three varieties brings together the firm tannins of Tinta Roriz, the rock rose notes and soft tannins of Touriga Franca and the aromas of black fruits and berries and the very marked fresh floral notes of Touriga Nacional.

### HARVEST

2021 was a soft year in terms of weather, with some unusual rain in July and September but without peaks of high temperatures during the Summer. This allowed for slow and long maturations, originating elegant and well balanced wines. It was a very good year both in terms of production and quality.

### VINIFICATION

Grapes were vinified in our winery at Quinta das Marvalhas in Almendra, in the heart of Douro Superior.

Our winery is equipped with the latest technology and enables complete control of temperature, essential for our region of extreme climates. After grapes arrive at the winery, we eliminate clusters which are not in perfect condition. The grapes are then vinified with total de-stemming, soft crushing and thermal shock followed by a period of cold pre-fermentative maceration in the wine press for about 12 to 24 hours. The must is transferred to broad and low fermentation tanks, where the wines ferment for about 10 days at temperatures between 24 and 26° C. Malolactic fermentation occurred naturally and is finished in late December. Part of the fermentation process was made in oak barrels.

### TASTING NOTES

Very fresh and intense aroma, with notes of wild black fruits and black cherries balanced with seductive hints of licorice. More complexity due to subtle notes of vanilla from the oak. The wine is fabulously concentrated and has firm tannins and a smooth texture. The very persistent finish strongly displays the intensity of the wines of the Douro Superior.

This wine matches with meats, cheeses and Mediterranean cuisine.
